

Overhead Three Phase Delta Transformer Bank with Overhead Services

Utility Network Detailed Model

three phase medium voltage
overhead line with no neutral

one line with vertices at
each tap and attachment

Key

- Utility Network feature class
 - Asset Group (subtype)
 - Asset Type
- Electric Line
 - Medium Voltage Conductor
 - Overhead Three Phase
- Electric Line
 - Low Voltage Conductor
 - Overhead
- Electric Device
 - Medium Voltage Arrester
 - Line Arrester
- Electric Device
 - Medium Voltage Fuse
 - Overhead Cutout Fused Disconnect or Overhead Cutout Solid Blade
- Electric Device
 - Medium Voltage Transformer
 - Overhead Single Phase with High and Low terminals
- Electric Junction
 - Medium Voltage Connection Point
 - Overhead Tap
- Electric Junction
 - Low Voltage Line End
 - Riser
- Electric Junction
 - Medium Voltage Attachment
 - Overhead
- Electric Junction
 - Low Voltage Line End
 - Overhead Line End
- Structure Point
 - Electric Medium Voltage Pole
 - Single Pole
- Electric Assembly
 - Medium Voltage Transformer Bank
 - Overhead Three Phase
- Containment association
- Connectivity association
- Structural attachment association
