

Overhead Three Phase Primary Meter

Utility Network Detailed Model

Key		Utility Network feature class
		└ Asset Group (subtype)
		└ Asset Type
		Electric Line
		└ Medium Voltage Conductor
		└ Overhead Three Phase
		Electric Device
		└ Medium Voltage Service
		└ Primary Meter - Industrial Customer or Primary Meter - Utility Customer
		Electric Device
		└ Medium Voltage Switch
		└ Overhead Three Phase Load Break
		Electric Device
		└ Medium Voltage Line Monitor and Relay
		└ Instrument Transformer
		Electric Junction
		└ Medium Voltage Attachment
		└ Overhead
		Electric Junction
		└ Medium Voltage Connection Point
		└ Overhead Tap
		Structure Junction
		└ Electric Medium Voltage Pole
		└ Single Pole
		Electric Assembly
		└ Medium Voltage Service Bank
		└ Primary Meter
		Containment association
		Connectivity association
		Structural attachment association
