Standard Overhead Services

Utility Network Detailed Model

Utility Network feature class └ Asset Group (subtype)

└ Asset Type

Medium Voltage Conductor Overhead Three Phase

Low Voltage Conductor

└ Overhead

Electric Device

Medium Voltage Arrester

└ Line Arrester

Electric Device

Medium Voltage Fuse

 Overhead Cutout Fused Disconnect or Overhead Cutout Solid Blade

Electric Device

└ Low Voltage Service

Single Phase Residential

Electric Device

- Medium Voltage Transformer

└ Overhead Single Phase

with High and Low terminals

Electric Junction

Medium Voltage Connection Point

Overhead Tap

Electric Junction

Medium Voltage Attachment

└ Overhead

Electric Junction

Low Voltage Line End

Overhead Line End

Structure Junction

Electric Medium (or Low) Voltage Pole

└ Single Pole

Electric Assembly

Medium Voltage Transformer Bank

└ Overhead One Phase

Containment association

Connectivity association

Structural attachment association
